

LAW ENFORCEMENT MANAGEMENT SYSTEM (LEMS)
Officer Inventory Tracking

Officer Inventory Tracking is an application that allows for the tracking of material (inventory) issued to each individual employee.

Handguns, Shotguns, hats, shirts, shoes would be an example of inventory that would be tracked by this system. The purpose being to query the system at any point in time for employee terminations, or just to know what employees have what equipment.

SYSTEM HIGHLIGHTS:

- Maintains inventory issued to each individual employee.
- Tracks size and quantity of item issued.
- Allows for on-line inquiry and hard copy reports.
- User friendly and accessed by employee name.
